- > Learn mode and test mode
- > Printable worksheets, tutorials and test results
- > **NEW: Tracking**
  - log, report and print learner session details

## Explore MORE real-world language

Learn communication skills for daily life. The second volume of the **Issues in English** series has all the same types of exercises that are in the original edition of this popular and entertaining program. As well, there are also more than 20 brand new exercises.

**Issues in English 2** builds on your existing knowledge of English, encouraging you to expand your skills with a huge range of activities. You'll learn a comprehensive set of skills: listening, reading, writing, vocabulary, spelling, grammar, pronunciation and giving your opinion – all the things you need to communicate effectively.

*With **Issues in English 2** you'll get practice, help, feedback, tests ... and real-world results.*

*"... highly recommended for the language classroom or the self-study environment."*

*"Issues in English is one of the best CD-ROM packages for language that I have seen."*

## Improve your skills at your own pace

**Issues in English 2** features four levels from Beginner to Advanced. Each conversation topic has a video clip for each level. Then, there are over 20 activities based around each video. So, as your skills increase, you can work at a higher level. Choose what **you** want to learn, and how and when you want to learn it.

## Learning is easy

The issues in **Issues in English 2** are tailored for adult learners. They are stimulating, relevant and will keep you motivated. The fully graphical interface is smart, intuitive and easy to use.

To support teachers, **Issues in English 2** includes self-paced activities - over 700 of them - along with printable worksheets, test results, feedback and tutorials. Log, report and print learner session details – times, activities, completion, test scores and more!

This package is used to teach adult students, home learners and entire classes. You can also use **Issues in English 2** as a flexible teaching tool in mixed ability classes.

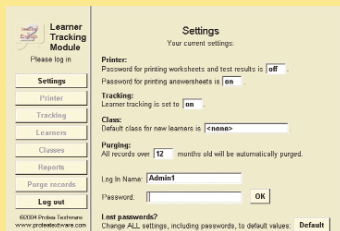

Used to teach literacy, ESL and EFL in language learning centres, schools (learners aged 12 and over) universities and colleges worldwide.
